

## Corrections to “Inland Revenue Annual Report : year ending 31<sup>st</sup> March 2001

### Page 17 – Specialist Activities

#### Tax Credits

During our first full year, our aim was to open enquiries into 1.5% of applications. The process is supported by a risk-based scorecard, matching of data with other Government Departments and allegations from the public. We started 14,423 full enquiries and 14,475 aspect enquiries and completed 13,487 full enquiries and 17,724 aspect enquiries. We found non-compliance in 18% of cases we took up and achieved a yield of £7.7 million.
