Compliance Checks and Penalties

[New guidance published on failure to notify penalty](#)

HMRC has published a new chapter in the Compliance Handbook, CH 7000, which covers how the new failure to notify penalty will apply to almost all the Department's taxes from 1 April 2010. The law requires a person to tell HMRC when certain events happen. These events include: where a person has Income Tax, Capital Gains Tax or Corporation Tax to pay but has not been given notice to make a Tax Return for the period when a person starts a new taxable activity, when the turnover from an existing activity has reached a certain level, or when the nature of the activity changes.

[New guidance published on changes to time limits](#)

HMRC has published a new chapter in the Compliance Handbook, CH 5000, which covers how changes for the time limits in assessing taxes will work. Separately, to prevent clients from missing out on payments they are due, HMRC has published [information for SA and PAYE taxpayers](#) to remind them that the time limits to make claims are also changing.

[New guidance published on the VAT and Excise wrongdoing penalty](#)

HMRC has published a new chapter in the Compliance Handbook, CH 9000, which covers how the new VAT and Excise wrongdoing penalty will operate. From 1 April 2010 this penalty regime applies where a person makes an unauthorised issue of an invoice showing or including VAT, misuses a product so that a higher rate of Excise Duty is payable, or handles goods that are subject to unpaid Excise Duty.

[Information to help your clients understand HMRC's new penalties system](#)

Extra help in explaining new penalties to clients is available to download as a PowerPoint presentation to use when talking to businesses or clients. It will help to explain the fundamental changes that HMRC is introducing to the penalties system. The presentation can be personalised on the editable pages, includes speaker notes and highlights how the new system will affect taxpayers. Please also look for additional info in the Tax and HMRC Service sections of Agent Update.

Tax Avoidance

[The Tax Avoidance Disclosure Regime: Pension Savings - the Special Annual Allowance Charge](#)

Regulations SI 2009/2033 have been laid before the House of Commons. They extend the Disclosure of Tax Avoidance Schemes Regime to require the disclosure of schemes which seek to avoid the Special Annual Allowance Charge (SAAC) on pension provisions announced in the 2009 Budget (Budget Note 47 provides details). These Regulations ('the 2009 amendment regulations') amend the Tax Avoidance Schemes (Prescribed Descriptions of Arrangements) Regulations 2006 (S.I. 2006/1543) ('the principal regulations'), to insert a new description concerning pension arrangements. The amendment regulations will come into force on 1 September 2009.

VAT

[Cross-border VAT changes 2010](#)

On 1 January 2010 there will be major changes to the VAT rules for businesses who supply services to or receive services from overseas businesses, supply goods to other EC countries or reclaim VAT incurred in another EC country. These changes affect where, how and when VAT is accounted for, as well as the completion of EC Sales Lists and reclaiming VAT incurred in another EC country. All these changes mean that businesses now have to consider whether the changes affect them and what they need to do to prepare for them.

[Details of the VAT treatment of deposits relating to sales of land on which dwellings are to be constructed](#)

Where development land is sold to registered social landlords (RSLs), it is normal for a deposit to be paid at the time of exchange of contracts when construction has not commenced and the plot is still 'bare land'. In many cases this deposit will be held by a stakeholder and will not create a tax point for VAT purposes until it is released to the vendor (or vendor's agent), normally at the time of completion. Completion of the sale will in most cases occur at a time when construction of the dwellings has commenced and progressed beyond what is commonly known as the 'golden brick', that is, beyond foundation level. This means the supply can normally be zero-rated.

It has, however, become increasingly common for the deposit to be made available to the vendor at the time of exchange when the land is still bare land. This has raised questions about the VAT treatment of the deposit, and in particular, whether it can be treated as part payment for the future zero-rated supply.

[HM Revenue & Customs brief 39/09 - change in zero rating for charitable buildings use](#)

There has been a change in HMRC's interpretation of the legal provisions that apply when allowing new buildings used for charitable purposes to be zero rated. Extra Statutory Concession (ESC) 3.29 and two related concessions will also be withdrawn.

This brief sets out HMRC's position on the judgment of the Court of Session in this case and tells claimants and appellants how to proceed.
