

Other Treasury Orders

Treasury Orders were made today in respect of

- The level of the starting rate and basic rate bands, the blind person's allowance and the children's tax credit, assuming statutory indexation
- The level of the earnings cap for pensions schemes, assuming statutory indexation

These orders are a formal statutory requirement and do not pre-judge any Budget announcement. The actual levels of these items will be announced by the Chancellor on Budget day. In the meantime payroll software should **not** be reprogrammed. Further guidance will be issued in Notes for Payroll Software Developers at Budget in the usual way.
