2. About this document

Section 3 outlines the rules that govern the contents of the GovTalkHeader.

Section 4 outlines the rules that govern the contents of the envelope schema. Business validation rules are defined in a separate set of rules for each message. This also contains both the validation and business rules, which will form part of the validation checks that will need to be undertaken by both the HMRC 'e' portal or that developed by third party software suppliers.

Section 5 covers the body response messages. On submission the message is tested against the XML schema by the Parser. XML that successfully passes through the Parser will then be tested against the GovRules, which test the cross-field validation.

This section identifies every element in the business validation rules. In all cases a Parser error will be generated if the submission fails at Parser level. If there is no specific cross-field validation for an element it is simply noted 'Parser error'. Where there is a cross-field validation the error and error message only is detailed.

A bold black line separates each data item table and the error messages contained below this line are state validation.

HMRC will use the following default values within the error structure when Parser errors are located.

Element	Description and Value
RaisedBy	HMRC-ERIC
Number	5012 – all errors caused by schema validation 6010 – all errors from badly-formed XML
Type	business
Text	Default text from Parser
Location	Line and position number from the Parser

Section 6 outlines the Success Response Messages.

3. ChRIS Response Messages

This section outlines the rules that govern the contents of the GovTalkHeader.

1. Correlation ID	
Error Number	
Error	A duplicate correlation ID has been submitted in TPVS.
Error Message	You have submitted a duplicate Correlation ID. Please either enter a new unique number or delete the element from your submission. In a live submission this field must be empty.
Error Number	
Error	Null correlation ID
Error Message	[ChRIS 1] System error <error number> please contact the helpdesk

2. Message class	
Error Number	
Error	The class sent does not match the URL.
Error Response Message	You have sent message class <Class> when the URL requires <Class>. Either make your submission to the correct URL or amend the class'.

4. IREnvelope Response Messages

This section outlines the rules that govern the contents of the envelope schema.

Each submission must contain only 1 occurrence of Pension Scheme Tax Reference, but may contain multiple occurrences of Scheme Administrators ID.

IRheader

1. Test Message	
Error	Parser level

2. Key	
Error	Parser level
Error Number	601603
Error	The Scheme Administrator ID in the IRheader does not match the Scheme Administrator ID in the body.
Error Message	The Scheme Administrator ID entry in the IRheader key does not match the Scheme Administrator ID in the body.
Error Number	601604
Error	The Practitioner ID in the IRheader does not match the Practitioner ID in the body.
Error Message	The Practitioner ID entry in the IRheader key does not match the Practitioner ID in the body.
