## Introduction

The Quality Standard gives you the information you will need to provide when filing your Employers Annual Return and Simplified PAYE Deduction Schemes online for the 2005-06 tax year. The Quality Standard, and the definition of filing online will be incorporated in Board's Directions.

PAYE Online for Employers offers two options to support online filing - Internet and Electronic Data Interchange (EDI).

Following the acceptance of Patrick Carter recommendations:

- Employers with 50 or more employees must file online from the tax year 2005-06; and
- Employers with fewer than 50 employees do not have to file online until the tax year 2009-10. However small employers with fewer than 50 employees can get up to £825 tax – free over five years for taking up online filing early.

If an employer's return does not meet the Quality Standard, the return will be treated as not having been made. There is a penalty of up to £3000 a year for an employer who does not file their annual return online when they should have done. This penalty could be in addition to the existing late filing penalty.

It is very important for software developers, and the employers who rely on them, to ensure that their products meet the Quality Standard.

Further information on sending your Employers Annual Return can be found at :

### Validation rules for online filing of Employers Annual Returns

The list below explains the terminology used in the status and field information columns in section 1 and 2

- 'Mandatory' means that the information must be supplied by law.
- 'Conditional' means that information should be supplied depending on either the case (e.g. if a Contracted Out Money Purchase scheme is operated, then the SCON is required) or information supplied elsewhere on the P14.
- 'Optional' means information that may be supplied if the employer has it and will help speed up processing by the Inland Revenue.
- 'Designated character set' – please refer to the XML Schema (for PAYE Online for Employers – Internet ) or the Message Implementation Guidelines (for PAYE Online for Employers - EDI) for details of the allowable characters for each field. These Specifications can be found at [www.inlandrevenue.gov.uk/ebu/softw\\_index.htm](http://www.inlandrevenue.gov.uk/ebu/softw_index.htm).
- 'In the appropriate format' – please refer to the XML Schema (for PAYE Online for Employers – Internet ) or the Message Implementation Guidelines (for PAYE Online for Employers - EDI) for format details for each field. These Specifications can be found at [www.inlandrevenue.gov.uk/ebu/softw\\_index.htm](http://www.inlandrevenue.gov.uk/ebu/softw_index.htm).
- 'Aggregation Cases' – where an employee has more than one job with the same employer or with different employers who are 'Trading in Association' the earnings from two or more employment's are treated as being from a single employment. In these cases some validation rules will not apply. Validation rules that do not apply in Aggregation cases have been noted in bold text in the relevant fields.

## Section 2

### Amendment to Original Returns

This Appendix explains the changes to specific field validations when submitting an amendment to an original return.

The only acceptable combinations of forms which can be part of an Amended return are:

- P35 with no related P14's
- P35 with related P14's.

P14 amendments must follow with a P35 amendment, either together or in separate parts. You can do this using PAYE Online for Employers – Internet or EDI, or a combination of both. More information on filing your return in parts can be found at <http://www.inlandrevenue.gov.uk/employers/doitonline.pdf>

The Amended returns must not include figures already filed and must only reflect additional information whether this is a positive or negative amount

- The fields on the P35 and P14 shown below can have a positive or negative value.
- P35 accounting fields **must** equate to the values recorded on the P14s accompanying the Amended Return.

All fields in this section are numbered to match the same fields noted in section 1. Any not listed in this section must also be completed as described in section 1 including fields 1 to 7 (Employer Header Information).

### Section 3

#### **Simplified PAYE Deduction Schemes**

The Simplified Deduction Scheme is one in which the employer is not required to follow the full range of tasks in a normal PAYE scheme, and is strictly intended for personal and domestic employees who are paid a fixed wage. Or persons employed to assist a disabled employer with their business, profession or course of study.

The forms that are part of a Simplified PAYE submission are P12, P14 and P37. P14 and P37 totals are derived from the P12 data by the IR online supplier and are then sent to the IR over the Internet. The application should provide an End of Year Certificate (form P60) for the employee.

In year submissions are required for change of employee's Tax Code and notification of Employee leaving.

At the end of the tax year the P37 and associated P12 and P14 data (including in year P12 data) must be sent as a complete package.

Sections 1, 2 and Appendix 3 do not apply to Simplified PAYE Deduction Schemes.

### Modulus 19 Check

This Appendix details the calculation, known as the Modulus 19 Check.

This check is used to confirm the validity of the ECON/SCON provided by the Employer. It cannot identify if any of the digits of the reference number provided are incorrect therefore it should not be used to amend the reference number in an attempt to provide the correct SCON/ECON.

The calculation used to confirm the validity of the supplied SCON/ECON is as follows: -

FIXED VALUE FOR A SCON = 51  
(SCON = 51)

FIXED VALUE FOR AN ECON = 37  
(ECON = 37)

To confirm the validity of SCON S1301234T, take the supplied digits of the reference number and multiply as follows -

1	x	8	=	8
3	x	7	=	21
0	x	6	=	0
1	x	5	=	5
2	x	4	=	8
3	x	3	=	9
4	x	2	=	8

TOTAL	=	59		
TOTAL + FIXED VALUE (51)	=	110		
DIVIDE 110 BY 19	=	5	REMAINDER	15

The remainder figure is then checked against the table of Check Letters, detailed below, to confirm that the check letter is 'T'.

**This check can only be used to confirm the validity of the SCON/ECON where the correct digits have been supplied.**
