

Version 1.3 Payroll Software specification on Statutory Sick Pay

This new version corrects some minor errors as follows:

- Page 5 – C14 - a correction to the validation check taking into account that waiting days are also qualifying days
- Page 9 – Stopping paying SSP – adding the requirement to issue form SSP1 early if incapacity is expected to exceed entitlement to 28 weeks' SSP
- Page 10 – System produced SSP1 – adding the requirement to record the last day for which SSP is due
- Page 11 – System produced SSP1(L) – a change to the definition of the last day for which SSP is due.
