

The Comprehensive Tax Calculation Guide

for the year ended 5 April 2003

You can use this Guide to work out your tax bill if you want to, and if your circumstances mean you can't use the one sent as part of your Tax Return package. If you decide not to work out your tax, make sure your Tax Return reaches us by 30 September 2003. You might want to consider using our Internet service for Self Assessment (SA). If so, go to www.inlandrevenue.gov.uk/e-tax/index.htm

If we receive your Tax Return after 30 September 2003 and you haven't calculated your tax bill, we will do it for you but we can't guarantee to let you know what to pay by 31 January 2004. So if you don't know what to pay, make an estimate and pay that. If you don't pay enough, you will have to pay interest, and you may have to pay a surcharge.

If you need help, ask your Inland Revenue office or the Helpline (telephone 0845 9000 444 or, if you live abroad, use the International access code followed by (+44) 161 931 9070). But we will only be able to do the calculation once we have received your Return.

This Guide contains a working sheet, starting on page 4, that's made up of a number of stages, to work out your tax bill. Some stages may not apply to you and you may be able to skip many of the boxes. Some of the more unusual types of income and reliefs are dealt with in the later pages (on pages 24 to 34); the working sheet will direct you to those pages if they apply to you.

There are notes to help you fill in the boxes, but the guide does not go into great detail about how, or why, tax is charged in the way it is. Your Inland Revenue office can provide more information. But the working sheet sets off any tax deductions, allowances and reliefs you've claimed in your Return in the way most beneficial to you, and charges tax at the rates set by law.

Different types of income (and capital gains) are chargeable at different rates of tax - see the Table below.

TYPE OF INCOME OR CAPITAL GAIN	TAX BAND		
	First £1,920 of Taxable Income (Note 1)	Next £27,980 of Taxable Income (Note 2)	Taxable Income above £29,900
Non-savings income for example, income from employment or self-employment	10%	22%	40%
Savings income includes bank and building society interest but not UK dividends	10%	20%	40%
Dividends and tax credits	10%	10%	32.5%
Taxable lump sum payments, and gains on life insurance policies	10%	22%	40%
Gains on life insurance policies with tax treated as paid	22%	22%	40%
Capital Gains	10%	20%	40%

Note 1 The £1,920 is first set against taxable non-savings income. Only when the taxable non-savings income is less than £1,920 is there a balance that is set against taxable savings income.

If the taxable non-savings and savings income (added together) is less than £1,920 the balance can be set against dividends.

Likewise, the next £27,980 is first set against taxable non-savings income and only when there is a balance (because taxable non-savings income is less than £27,980) is that set against taxable savings income.

Note 2 The figure of £27,980 can be increased if you make certain payments for which you receive basic rate tax relief at source, such as Personal Pension Plan contributions paid after basic rate tax, Gift Aid payments, and Free-Standing Additional Voluntary Contributions (FSAVCs), and you pay tax at the higher rate. Boxes c4.2 to c4.7 on page 10 deal with this.

Here's a summary of the stages you'll see in the working sheet:

- STAGE 1** is for all the income you've included in your Return and sorts it into the categories which will be taxed later on
- STAGE 2** brings in deductions - such as losses - and some allowances (all UK residents, and some non-residents, are entitled to the personal allowance of £4,615) that you've claimed on your Return
- STAGE 3** takes away those deductions and allowances from your income to get to your **total taxable income**
- STAGE 4** works out the income to be charged at 10%, at 20%, at 22%, at 32.5% (the upper dividend rate) and at 40% (the higher rate)
- STAGE 5** then goes on to work out the tax due, so far
- STAGE 6** brings in all the tax you've already paid on your income (so you'll need your Return and any supplementary Pages again)
- STAGE 7** is the longest stage in the calculation. It starts with the tax due figure from Stage 5 and
- takes off further allowances and reliefs in terms of tax,
 - checks any Gift Aid payments you've made (to make sure there's sufficient tax for the charities to reclaim),
 - deals with your tax credits on dividends,
 - brings in Class 4 National Insurance contributions (if you're self-employed or in partnership), any Capital Gains Tax or Student Loan repayments, and any adjustments for earlier years,
 - takes off the tax paid from Stage 6,
- to give you the figure for box 18.3 on page 8 of your Return.
- STAGE 8** works out what you have to pay us by 31 January 2004, or what we have to pay you
- STAGE 9** checks if you'll have to make 2003-04 payments on account (if you do, the first one will be due on 31 January 2004).

■ Allocate gains on life policies with tax treated as paid to tax bands

			from c3.27 c4.36
		£	

READ THE 'CALCULATION HELP' BOX BELOW

CALCULATION HELP

These two pages first of all work out the amount of basic rate band you're entitled to (boxes c4.1 to c4.7), then allocate the different kinds of income you sorted out in Stage 1 to the tax bands. **If any box on these pages is a minus amount, substitute zero, '0'.**

Work **'down and along'** from left to right for each kind of income. But if you have an entry in box c4.12 you can copy any entry in box c4.15 **straight into** c4.19, c4.22 into c4.26, c4.29 into c4.33 and c4.36 into c4.40. This is because you are liable to higher rate, or upper dividend rate, on **all** your taxable savings, dividends, lump sums and gains on life policies.

box c4.4 and box c4.5

Payments under Gift Aid are treated as having been made after the deduction of Income Tax at the basic rate (22%). If you are liable to tax at the higher rate you are entitled to further tax relief for any Gift Aid payments. The relief is given by increasing the amount of basic rate band by the amount of your Gift Aid payments plus the basic rate tax treated as deducted. To work out that increased amount you have to 'gross up' your Gift Aid payments (from boxes 15A.1 and 15A.3 on page 5 of your Return) by multiplying boxes 15A.1 and 15A.3 by 100 and dividing by 78. For example, if your Gift Aid payments in box c4.4 (from boxes 15A.1 and 15A.3) were £125 the figure to enter in box c4.5 is £161, that is £125 x 100 divided by 78.

c7.1 minus c7.21
c7.22

Income Tax due, after allowances and reliefs

CALCULATION HELP

boxes c7.23 to c7.27

If you have made Gift Aid payments you must pay Income Tax, at whatever rate, or Capital Gains Tax **at least equal** to the basic rate Income Tax treated as having been deducted. The charity receiving payments from you can reclaim that Income Tax from us. We must make sure you pay sufficient tax to 'cover' the tax repaid to the charity. If you haven't paid enough it may be necessary to restrict your personal allowances so more income is charged to tax or we may ask you to pay more.

Boxes c7.23 to c7.27 compare the tax charged on your income with the tax treated as deducted from your Gift Aid payments.

CALCULATION HELP

box c7.52 If you pay tax under PAYE, we try to make your tax code match your circumstances so you pay the right amount of tax in the year. But your 2002-03 tax code may have been adjusted to collect tax you owe for earlier years. Look at your 2002-03 Notice of Coding (form P2). If we have made such an adjustment, it will show an 'amount of unpaid tax for earlier years'. Copy that figure into box c7.52 and box 18.1 on your Return.

Unpaid tax for earlier years included in 2002-03 tax code (see calculation help above)	£ <input type="text"/>	c7.52	
			<i>copy to box 18.1 on your Return</i>
Repayment of Student Loan (if you ticked 'Yes' to Question 17 on your Return please refer to <i>Help Sheet IR235</i>)	£ <input type="text"/>	c7.53	c7.51 + c7.52 + c7.53
			c7.54
			<i>copy to box 18.2A on your Return</i>
Total tax paid at source	£ <input type="text"/>	c7.55	
			<i>from c6.14</i>

CALCULATION HELP

box c7.56 If, because of a change in your circumstances, your 2002-03 tax code was reduced during the year to 5 April 2003, you may have paid too little tax for the time before your code was reduced. If so, we will have arranged for that underpaid tax to be collected through your tax code for 2003-04. Look at your **latest** Notice of Coding (form P2) for 2002-03. If there's an 'estimated underpayment' figure on the bottom of the P2, copy it to box c7.56 and box 18.2 on your Return.

2002-03 unpaid tax included in your 2003-04 (or later) tax code (see calculation help above)	£ <input type="text"/>	c7.56	c7.55 + c7.56
			c7.57
			<i>copy to box 18.2 on your Return</i>
Total Income Tax, Class 4 NIC and Student Loan repayment due	£ <input type="text"/>	c7.58	c7.54 minus c7.57

CALCULATION HELP
This box can be a minus amount.

CALCULATION HELP

If you have capital gains in box 8.8 of the Capital Gains Pages of your Return and you haven't already worked out the Capital Gains Tax (in box c7.25) go to page 30 now and copy box c14.24 to c7.59.

Capital Gains Tax	£ <input type="text"/>	c7.59	
			<i>from c7.25 or c14.24</i>
Total tax, Class 4 NIC and Student Loan repayment due	£ <input type="text"/>	c7.60	c7.58 + c7.59
			<i>copy to box 18.3 on your Return</i>

CALCULATION HELP
This box can be a minus amount.

Now go to Stage 8 on page 20 to work out what you have to pay us by 31 January 2004, or what we have to pay you.

box c8.3 and box 18.4 on your Tax Return

You may have paid too little tax in earlier years because:

- you claim averaging for farmers and creators of literary or artistic work which has increased your income for last year, **or**
- you claim to carry back post-cessation receipts to the year your business ceased (increasing your income in that year)
- you had refunds of foreign tax for which foreign tax credit relief was given (box 3L.79).

Work out your underpayment of tax or Class 4 NIC by reference to the tax rates and circumstances of that earlier year. Recalculate the liability for that year (the equivalent of box c7.60 in this calculation) taking account of the adjustment. The difference between the recalculated figure and the original figure is the tax due. Enter that in box c8.3 and copy it to box 18.4 on your Tax Return. If you need help, ask your Inland Revenue office or your tax adviser.

box c8.5 and box 18.5 on your Tax Return

You may have paid too much tax for an earlier year because:

- you claim that losses are set against income of an earlier year or years, **or**
- you claim to carry back retirement annuity or personal pension plan payments to 2001-02 - boxes 14.3 or 14.7 on your Tax Return, **or**
- you claim averaging for farmers and creators of literary or artistic works, reducing your income for last year.

Do not include losses or pension payments for which you have previously claimed relief.

Work out how much tax or Class 4 NIC you overpaid by reference to the tax rates and circumstances for the earlier year. Recalculate the liability for that year (the equivalent of box c7.60 in this calculation) taking account of the adjustment. The difference between the recalculated figure and the original figure is the amount of tax overpaid. Enter it in box c8.5 and copy it to box 18.5 on your Tax Return. If you need help ask your Inland Revenue office or your tax adviser.

box c8.6 and box 18.8 on your Tax Return

If you are claiming now to carry back to 2002-03:

- a 2003-04 trading loss, or certain 2003-04 capital losses (provide details of your claim in the 'Additional information' box, box 23.5 on page 9 of your Return)
- 2003-04 pension payments (boxes 14.4 or 14.8 on your Return)

work out the 2003-04 repayment by reference to the tax rates and your circumstances for 2002-03. Recalculate your 2002-03 liability taking into account the loss or pension payment. The difference between that figure and box c7.60 is the amount of your 2003-04 repayment. Enter it in box c8.6 and copy it to box 18.8 on your Tax Return.

If box c8.12 is positive, this is the tax you owe
If box c8.12 is negative, this is the tax we owe you

c8.4 minus box c8.11

c8.12
£

(If you want to claim a repayment of any tax overpaid, after we have settled any other Revenue debts you may have, fill in Question 19 in your Tax Return.)

STAGE 9: NOW CONSIDER WHETHER YOU HAVE TO MAKE PAYMENTS ON ACCOUNT FOR 2003-04

If box c9.1 is less than £500, you do not have to make payments on account for 2003-04; do not complete boxes c9.2 and c9.3. Enter zero ('0') in box c9.4 and complete box c9.5.

c7.58 minus (c7.53 + c8.10)

c9.1

£

If box c9.1 is £500 or more, carry on.

c7.15 + c7.16
+ c7.48 + c7.51

c9.2

£

Box c9.3 will compare the tax you owe with the tax you paid at source (this means tax taken off your income before you receive it). If more than 80% of your tax bill for 2002-03 is met from tax paid at source, you don't need to make payments on account for 2003-04.

c9.2 x 20%

c9.3

£

If box c9.1 is less than box c9.3, you do not have to make payments on account for 2003-04. Enter zero ('0') in box c9.4 and complete box c9.5.

CALCULATION HELP

You may want to reduce your payments on account for 2003-04 (including reducing to nil) if you expect:

- your 2003-04 income to be lower than 2002-03, **or**
- your allowances or reliefs to be higher, **or**
- more of your 2003-04 income will be taxed at source, because
 - it will be taxed under PAYE, **or**
 - it will be covered by subcontractor deductions (on CIS25s), **or**
 - you have more savings income.

If you do want to reduce your payments on account, you must make a reasonable estimate of the difference between the Income Tax you expect to pay in 2003-04 and your Income Tax on this Return. You can reduce each of your payments by half this difference.

Enter in box 18.7 the amount of each reduced payment on account (**including the pence**), or nil, if appropriate, and tick box 18.6. Give your reason for reducing your payments in box 23.5 on page 9 of your Return.

If you decide later that your reduced payments are still too high, write to us saying why you are claiming to reduce still more.

Make sure the payments you make, by 31 January 2004 and 31 July 2004, add up to your best estimate of your tax bill for 2003-04.

If your two payments on account turn out to be different from your 2003-04 tax bill and if you have paid

- *more* than you needed to, we will credit you with interest
- *less* than you needed to, we will charge interest.

Your two payments on account should be the **smaller** of the actual Income Tax and Class 4 NIC due (*net of tax deducted at source and tax credits on dividends*) for 2002-03 or 2003-04.

If you have been fraudulent or negligent in claiming to reduce your payments on account, we may charge a penalty.

If you decide later that you have reduced too much, you can revise your claim upwards and/or pay more in line with your revised estimate. But if you do not make a claim, we may allocate additional amounts paid to other outstanding liabilities.

If box c9.1 is equal to, or more than, box c9.3, enter in box c9.4, box c9.1 x 50%. You must **include the pence** in box c9.4 (**and** when you copy it to box 18.7 on your Tax Return).

c9.1 x 50%

c9.4

£

*copy box c9.4 to
box 18.7 on your Tax Return*

c8.12 + c9.4

c9.5

£

Your total payment due on 31 January 2004

If box c9.5 is positive, this is the tax you owe. If box c9.5 is negative, this is the tax we owe you

Note: if you make any payment towards your 2002-03 tax bill between now and 31 January 2004, and that payment isn't included in boxes c8.7 or c8.8, reduce the figure in box c9.5 by the amount of that payment.

If 2002-03 payments on account aren't paid by their due dates (31 January 2003 and 31 July 2003), interest may also be due.

If you need to fill in any of the boxes on pages 24 to 34, the working sheet on the preceding pages should already have directed you to them.

Briefly, the next few pages cover

- age-related personal allowance and married couple's allowance
- Children's Tax Credit
- top slicing relief if any gains on life policies have made you liable to the higher rate
- working out Capital Gains Tax
- working out notional tax
- special tax reliefs if you have an entry in box 15.12 on page 5 of your Return or box 2.76 on the Share Schemes Pages
- working out the tax on any annuities and annual payments entered in box 15.9 on page 5 of your Return.

Work out age-related personal allowance if you were born before 6 April 1938

CALCULATION HELP

If any box on this page is a minus amount, substitute zero, '0'.

	Total income	from c1.33 c10.1 £ <input style="width: 100%;" type="text"/>
	c2.16 minus c2.15	
Deductions	c10.2	£ <input style="width: 100%;" type="text"/>
