# **Child Benefit Statistics**

## **Geographical analyses**

**November 2003**

| <b>Contents</b>   | <b>PAGE</b> |
|---|-------------|
| Introduction  | 1           |
| Table 1 : Families receiving Child Benefit nationally, in each country<br>and in each Government Office Region of England | 2           |
| Table 2 : Families receiving Child Benefit in each local authority  | 3           |
| Table 3 : Families receiving Child Benefit in each Parliamentary constituency   | 13          |

## **Introduction**

These tables show the number of families, by size, receiving Child Benefit (CB) at 30 November 2003 in each country of the United Kingdom and region of England (Table 1), in each county, district and unitary authority (Table 2), and in each Westminster parliamentary constituency (Table 3).

The tables also show the numbers of children for whom CB was received, by age. The numbers aged 16 and over include those reaching 16 since 31 August 2003, as well as older children aged under 19 and in full-time non-advanced education.

The tables are based on all CB records as at 30 November 2003. They take no account of claims by new families, and for extra children, made or processed later and backdated. This particularly affects the numbers of children aged under 5.

## **Geographical allocation**

The local authority and constituency of each family were identified using the postcode held on the CB computer system. They were matched to the November 2003 Gridlink Postcode Directory for Great Britain, supplied by the Office for National Statistics (ONS), and the May 2003 Directory supplied by Northern Ireland.

The postcode directory failed to match some postcodes starting BT. 7,550 families with such postcodes have been allocated to "Northern Ireland not identified". Other postcodes were incomplete, but the first characters were sufficient to establish a group of local authorities within which the address falls. 950 families with these postcodes have been allocated at random to local authorities within that group at Table 2, and to "Not identified" for the relevant country in Table 3.

Other families with a missing, incomplete or unrecognised postcode are allocated to "Abroad and not known" in Table 1.

## **Rounding**

The figures have been independently rounded to the nearest 5. This can lead to components as shown not summing to totals as shown.

## **Comparisons with other Child Benefit statistics**

The number of families in the United Kingdom receiving CB shown in this publication is about 1 per cent lower than the estimate for November 2003 shown in "Child Benefit. Quarterly Statistics". The main reason is that the definition of what constitutes a current CB award varies between the extracts used to generate the figures. These differences are currently under investigation. Pending the results, it has been decided not to standardise to a single aggregate. Users should bear this in mind when comparing the figures.

The Neighbourhood Statistics pages on the ONS website show the number of families in each ward, local authority and region in England and Wales receiving CB at August 2001 and August 2002. Users should bear in mind that, between each August and November, the number of recipient families drops by nearly 2 per cent, and the number of children by over 2 per cent (concentrated in the number aged 16 and over). This is because from early September each year awards no longer cover young people aged 16 unless they remain in full-time non-advanced education.

**Table 1: Families receiving Child Benefit nationally, in each country, and in each Government Office Region of England, November 2003**

|                                      | Number of families, by size |           |              |                |                       | Number of children in these families by age. |           |           |           |             |
