Table updated January 2010

Notes on the Table

Distribution of total income before and after tax by gender, 2007-08

1. This table only covers individuals with some liability to tax.

2. It should be noted that individuals may not necessarily fall into the same total income band for before and after tax breakdowns. Total income before tax is used to assign people to an income band for columns 2 to 5, whereas total income after the deduction of tax is used to assign individuals to an income band for columns 6 to 9.

3. For details of the symbols used in this table please refer to paragraph 8 of the notes on Personal Incomes ([link](#))
