Footnotes for tables 2.1 and 2.2

(1) Taxpayers with total taxable income below the lower rate limit and some taxpayers whose savings and dividend income took them above the lower rate limit. From 1993-94 until 1998-99 a number of taxpayers with taxable income in excess of the lower rate limit only paid tax at the lower rate. This was because it was only their dividend income and (from 1996-97) their savings income which took their taxable income above the lower rate limit, and such income was chargeable to tax at the lower rate and not the basic rate.

(2) In 1999-2000 the starting rate replaced the lower rate. Between 1999-2000 and 2007-08 taxpayers with total taxable income below the starting rate limit. From 2008-09 taxpayers with no taxable earnings and total taxable income from savings below the starting rate limit.

(3) Taxpayers with no taxable earnings and total taxable income from savings and dividends between the starting or lower rate limit and the basic rate limit. Before 1999-2000 these taxpayers would have been classified as lower rate taxpayers.

(4) Between 1999-2000 and 2007-08 taxpayers whose total taxable income is between the starting rate limit and basic rate limit and includes income from earnings or income taxed as earnings. From 2008-09 taxpayers whose income includes earnings or other income taxed as earnings and with total taxable income below the basic rate limit.

(5) Before 2010-11 taxpayers with total taxable income above the basic rate limit. From 2010-11 taxpayers with total taxable income between the basic rate limit and the higher rate limit.

(6) Taxpayers with total taxable income above the higher rate limit.

(7) Taxpayers aged 65 years or older for men and 60 years or older for women in 2009-10. The female State Pension Age is being increased gradually from April 2010 to be equalised with the male State Pension Age by November 2018. The female State Pension Age for the purposes of this table in 2010-11 is 60 years 6 months and in 2011-12 is 61 years.

(8) Projected estimates based upon the 2007-08 Survey of Personal Incomes using economic assumptions consistent with the OBR's March 2011 economic and fiscal outlook. These projections fall outside the scope of National Statistics.

(9) Some UK taxpayers reside abroad, or region is not known (255,000 in 2007-08). Sum of taxpayer numbers across countries and regions in Table 2.2 therefore will not match UK total shown in Table 2.1.
