### Individual Savings Accounts

#### Notes on the table

1. The above table shows the number of ISAs to which subscriptions have been made and amounts invested split by type of component. The information in the tables comes from the quarterly returns that must be made to the HM Revenue & Customs by ISA managers.
2. Life insurance component qualifying investment rules were merged with the stocks and shares component rules from the 6th April 2005 subject to a cash like test.
